Witness Swears Goebel Was Not Shot From Power's Office.

Golden Recalled and Denied That He Made Certain Statements Which Dr. Prewitt Said He Had Made to Him.

Georgetown, Ky., Aug. 7.-The fifth week of the trial of ex-Secretary of State Caleb Powers, for alleged complicity in the Goebel murder conspiracy, began Monday morning. Ex-Gov. John Young Brown, chief counsel for Powers, says the defense will conclude its testimony probably on Friday, but possibly not till Saturday. After that the prosecution will consume three or four days in rebuttal.

Capt. D. B. Walcutt, who had charge of the soldiers that were quartered in the arsenal at Frankfort prior to the assassination and who were called out immediately after the tragedy, was the first witness called Monday. The troops, he said, were placed in the arsenal January 4, the day the legislature met.

Capt. Walcutt stated that it was about fifteen minutes after the assassination when the company was called out. On cross-examination he said he had never before seen the state arsenal under guard for the same Adjt. Gen. Collier, and did not know placed there. He said it was merely incidental that the soldiers were equipped with side arms and equipments and ready for active service was not customary for the men to be equipped inside the arsenal. He dethey heard of the shooting.

At the close of the examination of Capt. Walcutt the defense withdrew for the purpose of contradicting W. H. Culton.

B. R. Bullock, of Lexington, gave Came out and saw Jack Chinn, walking rapidly, go into til state house. A man was standing behind the fountain in a stooping position, and witness could not tell whether he was white or black and did not know what became of him.

Geo. L. Barnes, who was a clerk in the state auditor's office, gave a detailed account of the occurrences day of the shooting. He heard several persons say that the guilty parecutive building, and ought to be blown up.

Barnes said that after he went back into the executive building he smelled smoke which he supposed was the result of the shots. He saw Whitaker arrested by a party of citizens. They took several pistols from him. Prior to the ascassination witness saw a Marlin rifle in the vault at the auditor's office. It formerly belonged to Henry Youtsey, but at the time of the shooting it belonged to Grant Roberts, who has since been appointed a clerk in the census bureau he was in Frankfort several times in January. The last time he went was with the mountaineers. January 25th. More than half of the men were armed. He contradicted several of the statements of Robert Noaks. Hurst declared that the men in the mountain army were average mountain citizens, and closed by stating that he himself had been a delegate to the republican national convention.

"Did you see any of the alleged assassins of Gov. Goebel at that convention?" asked Attorney Golden. The witness said he did not, but afterwards said he saw ex-Gov. Taylor there.

"Were there any of the others who phia convention?" said Mr. Golden.

The witness said he did not see any such persons there. Ex-Gov. Brown objected to manner of examination, and there was a hot exchange of words between him and Golden.

Hurst admitted that he himself had been indicted and tried for forgery years, and Jacob Kress, aged 86. at Knoxville, Tcnn. brought up now. Mr. Golden said that the prosecution wanted to prove the fact for the purpose of affecting the credibility of the witness. "Such a crime," said Mr. Golden, "might not affect his credibility as a delegate to the Philadelphia convention, or as one of the members of the intimidation army at Frankfort, but it ought to be considered by this jury before whom he is testifying." The court allowed the question to be answered and the witness admitted that he was charged with the crime, but that there was no prosecution.

Georgetown, Ky., Aug. 9.-The Powers murder trial was resumed Wednesday morning and Dr. Prewitt, of Taylor county, who was on the stand when court adjourned Tuesday, continued on the stand. On cross-examination the witness denied that he told Wharton Golden he had no doubt that Tallow Dick Combs fired the shot that killed Goebel, and denied that he said Combs came into the adjutant general's office after the shooting. He repeated that Combs and Hockersmith were in the office at the time and that neither of them could have done the shooting. The witness also said he had seen Golden a day or two ago and denounced him as a liar. As the witness left the stand Golden was recalled and he and Prewitt met face to face. The spectators in the courtroom watched them closely to see how they greeted each other. They spoke cordially, and Golden took the stand and denied that he had made certain statements which Prewitt length of time. Got his orders from claimed he had made, and also repeated what he claimed Prewitt told him for what purpose the guard was in regard to Tallow Dick Combs in connection with the shooting.

Dr. Prewitt was again recalled and said that he was with Wharton Golden when the latter was first informwhen Goebel was shot, although it ed by Tom Campbell that he might be arrested in connection with the assassination. Prewitt said Golden told nied that the men were already lined him a few minutes later that they up, but said he lined them up after were arranging to put the crime on Powers, but that the latter was in-

Every Soldier and All the Men Engaged in Road Construction Work Fighting It.

Helena, Mont., Aug. 8.—The big fire that is raging in Yellowstone national park is being fought by every soldier in the park and all the men engaged in road construction work. Deputy United States Marshal Jackson, who has returned from there and who reported the fire, said that when he left it was reported that the fire had extended for a distance of ten miles and was still spreading. Men who have been in the park for years say it was the worst they had ever seen. Deer and elk have been driven out of the fire area by the flames. Buildings in the upper geyser basin are in danger. In the dense timber region everything is unusually dry and winds are carrying the flames with great rapidity. In Marshal Jackson's opinion it will be impossible for the force engaged to make any headway against the fire.
